VENKATA MAHALAKSHMI AYIRRAVU

Associate QA Engineer | Manual & Automation Testing

Hyderabad, India | +91-8500319631 | mahaayirravu@gmail.com | linkedin.com/in/venkata-mahalakshmi-ayirravu

PROFESSIONAL SUMMARY

Detail-oriented Quality Assurance Fresher with a solid foundation in manual test case authoring, boundary value analysis, functional testing, and defect life cycle tracking via **JIRA**. Hands-on experience developing baseline test automation scripts using **Selenium WebDriver (Java)**. Brings rigorous quality mindset from industrial inspection and root cause analysis, adaptable across web, mobile, and enterprise applications.

TECHNICAL SKILLS

Testing Methodologies:	Manual Testing (Web & Mobile), Functional, Regression, Smoke, Sanity, Pass/Fail Criteria, Root Cause Analysis (RCA)
Defect Tracking & SDLC:	JIRA, Bug Life Cycle (STLC), Test Case Design & Execution, Requirement Traceability Matrix (RTM), Agile/Scrum
Automation & Code:	Selenium WebDriver (Java), Basic Python, HTML/CSS Locators, Test Script Execution
Productivity & Tools:	TestMu AI, MS Excel (Test Suite Management & Data Validation), MS Word

TESTING PROJECTS & PRACTICAL EXPERIENCE

QA Engineer – E-Commerce & Web Application Testing *Self-Directed Practice*

- Authored and executed **25+ structured test cases** across User Authentication, Search, Cart, and Checkout modules utilizing Equivalence Partitioning and Boundary Value Analysis.
- Logged, prioritized, and tracked **5+ critical and major functional defects** in **JIRA** following the standard Defect Life Cycle (New to Closed), documenting detailed steps to reproduce, severity, and logs.
- Conducted functional, UI, and regression validation across Chrome, Firefox, and simulated mobile viewport layouts.
- Automated end-to-end user login workflows and form validations using **Selenium WebDriver with Java**, verifying assertion checkpoints and dynamic UI error states.

QUALITY & INDUSTRIAL EXPERIENCE

Final Quality Inspector (Intern) | **TVS Brakes India** *Andhra Pradesh, India*

- Conducted thorough end-of-line quality validation on production units, rigorously enforcing standard pass/fail criteria.
- Executed Root Cause Analysis (RCA) on defect occurrences and formulated inspection reports for cross-functional corrective measures.
- Audited production workflows against engineering compliance benchmarks to ensure high delivery standard.

Industrial Trainee (Intern) | **Vizag Steel Plant** *Visakhapatnam, India*

- Observed heavy industrial operations, systematic Quality Control (QC) frameworks, and adherence to standard operating procedures.

EDUCATION

B.Tech in Electrical & Electronics Engg.
Vasireddy Venkatadri Inst. of Technology (2026)
CGPA: 7.35 / 10.0

Intermediate (MPC)
Sri Pratibha Junior College
Aggregate: 80.8%

CERTIFICATIONS & AWARDS

- **Manual Testing Certification:** TestMu AI
- **Python Essentials:** Cisco Networking Academy
- **Best Volunteer Award:** Branch Coordinator at National Service Scheme (NSS), successfully led student teams for outreach initiatives.
